(By Associated Press.)  
PITTSBURG (Pa.), March 27.—William McDermott, the retired Chicago fireman, who believes Mrs. James H. Boyle, one of the alleged kidnapers of Willie Whittle, to be his daughter, has renounced his determination not to assist the girl. On his arrival in this city today he is said to have retained an attorney. Mrs. Boyle was taken to Mercer before he could visit her.

#### JUDGE DUNNE DENOUNCES ACTION AS COWARDLY

(By Associated Press.)  
SAN FRANCISCO, March 27.—Stirred by the presence in court of his aged father, whose sorrowful looks were a mute appeal for his son, Superior Judge Frank Dunne declared the practice of dragging innocent relatives of the accused in the court savored with unmanliness and cowardice on the part of defendants. The judge showed himself open to such appeals by consenting to the release of the boy if the officers of his former regiment would vouch for his previous good conduct.

#### THIS MAN IS TOO BIG FOR PRISON CELL

SIZE OF FORMER ST. LOUIS ALDERMAN A PROBLEM FOR WARDEN.

(By Associated Press.)  
JEFFERSON CITY (Mo.), March 27.—Matt W. Hall, warden of the penitentiary, admits that he has a hard problem to discover some means of handling Louis Decker of St. Louis, former member of the house of delegates, who was prosecuted and convicted of bootlegging, and sentenced to the penitentiary for five years. Decker came here last Wednesday and surrendered. That evening he was delivered to the warden of the penitentiary. Then trouble started for the warden. It was discovered that there was not a suit of clothes in the prison large enough to fit the prisoner and that the cell doors were too small to admit him. Decker tips the scales at 320 pounds, and he is by far the heaviest prisoner ever received at the penitentiary. Prison Physician Dr. Chastain was called into council. He said he believed a place could be fixed up in the hospital building where Decker could be kept. The warden at once accepted the proposition and Decker was taken there, where he is now confined.

#### Complete Search Made by District Attorney and Detectives to Recover Stolen Papers.

#### Five Men Have Been Arrested and Four Confess to the Stealing of Important Documents Relating to Bribery Cases.

(Associated Press.)  
SAN FRANCISCO, March 27.—Following the arrest of five men accused of conspiring to secure confidential papers relating to the graft cases, from the private office of District Attorney Langdon, the office of Patrick Calhoun, president of the United Railroads, and the adjoining rooms occupied by the legal staff, were entered and searched by detectives from the district attorney's office. Tonight Luther Brown, the head of the railway detectives and James Handion, the claims agent of the company, were arrested on warrants charging them with larceny, and a warrant was issued for the arrest of William M. Abbot, the assistant general counsel for the company, on a charge of receiving stolen goods. The raid on the offices was conducted by Police Detective Thomas Murphy and Assistant District Attorney Harrison accompanied by a dozen plain clothes men from the staff of Special Agent W. J. Burns. When they appeared before the door, Earl Rogers of the company's legal staff, answered the knock but refused them admission, claiming a defect in the search warrant. The detectives then broke into the room and broke open the desks and made a thorough search. Earl Rogers, Stanley Moore and others of Calhoun's counsel made no further objections after the door was broken. A squad of police were summoned, however, and

detectives, sightseers and newspapermen thronged the place. At the Oak street barn where the general offices of the company are located a search was equally as systematic. Following the search the safe combination was blown off and the papers there were looked over. The search warrants called for certain papers alleged to have been stolen from the district attorney's office, and it is believed that papers of importance were discovered in the safe. Late this afternoon Rex N. Hamilton, a confidential employee of District Attorney Langdon, and for two years private secretary to W. J. Burns; Al McKinley, William Corbin, E. A. Platt and Jerry Van Wormer were arrested and accused of conspiring to secure confidential records and transcripts of evidence of value to the defense in the graft trials, from the private office of the district attorney. After his arrest Hamilton broke down and confessed to his part in the affair. It is alleged that Hamilton has been selling documents of the district attorney's office for several months by using McKinley as a go-between. Burns became suspicious two months ago, since which time he has not been allowed to handle any of the important matters. Burns said at midnight that four of the men arrested this afternoon have made confessions implicating several of the defendants in the bribery and graft cases.

#### MISSSES NOT ONE DAY IN FIFTY YEARS

BOSTON & ALBANY ENGINEER RETIRES AFTER ACTIVE SERVICE.

(By Associated Press.)  
BOSTON (Mass.), March 27.—Boston is very proud of one citizen who has just retired from active service. His name is Joseph Merritt Alexander, and he has been an engineer on the Boston and Albany for fifty years. During the half century of his service he never received a reprimand nor a black mark; no error was ever recorded against him, and no human lives were ever lost while he guided the fast engines over the miles of track. He never missed a day during his fifty years of service, never was late and for the last twenty-five years he rose every day at 3 a. m., and was beside his engine shortly after, ready for duty at 4:30. The miles he covered would stretch to the moon at least ten times, and eighty to ninety times around the globe. Hot bread every day at 4 p. m. at City Bakery. 3-19-4f. Don't fail to attend the matinee at the Butler this afternoon.

#### E. H. HARRIMAN SPENDS LAST DAY IN CALIFORNIA

REFUSES TO STATE REAL CAUSE OF HIS VISIT TO THE PACIFIC COAST.

(By Associated Press.)  
SAN FRANCISCO, March 27.—E. H. Harriman spent what is scheduled to be the last day in this state quietly at Burlingame. His attention was diverted from the polo game for which he had offered a cup by a group of visiting railway officials headed by Louis Hill, president of the Great Northern. While here Harriman refused to subscribe to the rumors concerning his health and impending retirement. He said: "I no longer pay any attention to the reports of that sort emanating from Wall street. You may recall that I have heretofore refrained from affirming or denying that particular statement, and I do not think there will be any early change in my attitude." Harriman criticized the local business men for their tendency to erect huge office buildings. He said that before the fire the people lived in houses, but now they occupy apartment houses and hotels. The neighborhoods and districts are wiped out as in New York and Chicago. The corners are unoccupied because of the congestion of big buildings. New York and Chicago were ruined by this policy and San Francisco should avoid it.

#### COLORADO WANTS WHAT IT WANTS

(By Associated Press.)  
WASHINGTON, March 27.—Representative Taylor of Colorado has introduced a bill appropriating \$250,000 for the erection of an executive mansion at Glenwood Springs. This building will be for the use of the president and his family during the summer months. Glenwood is near the scene of Mr. Roosevelt's hunt in 1907. Mr. Taylor, who is a new member of the house, is quite liberal with bills that seek to provide public buildings for his district. He wants a postoffice, land office, forestry service and other federal offices provided with a building at Glenwood Springs. In addition, he wants a monument erected to the memory of General Denver and an agriculture experiment station. He also had introduced a bill providing for the expenditure of \$300,000 for the erection of monuments over the graves of deceased ex-presidents.

#### NOT READY TO SELL PRODUCTS

(By Associated Press.)  
SAN FRANCISCO, March 27.—The efforts of a group of local and eastern capitalists to incorporate the genius of Luther Burbank, the plant wizard of Santa Rosa, have failed. Some time ago the Laws of this city and Oscar Binner of New York announced they had completed plans whereby the products of the noted naturalist were to be handled exclusively by a corporation which they had formed for that purpose. In giving his reason for not ratifying the agreement, Burbank made the following statement: "The early development did not indicate satisfactory results, either to the world or the parties involved in the transaction. As no corporation had yet been formed, and only a preliminary contract executed when the proposition was found to be impracticable, it was mutually agreed that it be abandoned."
